

# The Africa Regional Conference

The Africa Regional Conference is divided into four regional conferences and within each conference there are episcopal areas. An Episcopal Area acts as a "diocese" that facilitates regional governance, with the bishop providing oversight and leadership for that area.

There are many missional churches supported by The United Methodist Church around the world. For more detailed information about specific locations, please explore episcopal areas, jurisdictions, and annual conferences. You can also learn more about missional work and the communities supported through The United Methodist Church here:
